Projects

This section lists my projects.

Source

This is the source code of a Java program:

```java
public class HelloWorldApp {
    public static void main(String[] args) {
        // Prints the string to the console
        System.out.println("Hello World!");
    }
}
```

This is a fragment of HTML source code:

```html
<!-- Fleurons are stylized flowers. -->
<div class="center">
<img class="fleuron" src="images/fleuron.svg"
    width="45" height="16" alt="* * *">
</div>
```

The statement `System.out.println("Hello World!");` prints to the console.

Here is a nice table about Ubuntu Long Term Releases.

Ubuntu Release	Minimum Kernel	C Library	Size (MB)	Packages
14.04 LTS	2.6.32	2.19	190	46,273
16.04 LTS	3.2.0	2.23	109	54,520
18.04 LTS	3.2.0	2.27	55	59,624
